*Patterson's date of birth appears differently on various documents. The birth year listed here matches his headstone. As you conduct your research, think about why historical sources have errors, why people might lie about their age, and how these factors influence our interpretation.

This will help you determine when you think the Veteran was born.

S DIVISION

Beginning with the first day in Astoria the ship has learned the importance of supply. A ship must be a self sustaining unit five thousand miles from home port. But food is supply's major problem. Three times a day 365 days a year, the cooks, bakers, and stewards mates turn to, to feed a ship load of men. That's a lot of chow in any man's language!
