UNIVERSITY OF CENTRAL FLORIDA

Welcome to Florida National Cemetery. You can access veteran biographies while standing at select grave sites in sections MC, MD, ML, 103, 104, and 201. This guide will help you locate each augmented grave within these sections. Once at the grave site, use your smart device to access the online veteran biography.

Augmented Reality App, Aurasma Requirements

The augmented reality app, *Aurasma*, requires an Internet connection. Cellular data signals may be sporadic or nonexistent depending on your carrier. Please note that a wifi hotspot will be required until the surrounding area's infrastructure gets better coverage.

Apple® and Android® devices will recognize a project grave marker and link to the veteran's biography.

Windows Phone Users

For Windows® phone users we have provided QR codes that link to the biographies.

1. Access the Windows Store on your phone and install a QR Code reader.
2. While in the cemetery, use the QR codes in the guide to access the biographies.

Installing the Aurasma on Your Smart Device

1. Install Aurasma from AppStore for iPhones/iPads or from Google Play for Android.
2. Open the app and create a free account as this will allow you to "follow" the project and have access to the biographies.
3. Once you are logged in to your account, tap on Discover Auras. Auras are the name given to the individual digital structures that, in our project's case, give you access to the biographies.
4. Enter "UCFVLP" in the search box and tap Search.
5. A list of the UCF VLP project Auras will be displayed.
6. Tap on the top item "UCFVLP's Public Auras."
7. You will see grave markers and a "follow" button. Tap the button to follow the project when you are in the Florida National Cemetery or in your classroom, community center, or other location through the virtual tour.
8. Once you are following UCFVLP, tap Back on the follow screen and then tap Cancel on the Discover Auras search screen.
9. You will now see UCF's Auras (grave marker images) with a purple button down at the bottom of the screen. 

Usage Instructions in Florida National Cemetery

1. Point your smart device at the Directory Map located in front of the the visitor's center. A list of augmented sections will appear on your screen. Locate these sections on the map.
2. This guide includes a list of veterans in Section and Grave number order. The section and grave number are etched into the back of each marker. We also include the row of the section in which the marker is located and what we call the column. The row count is from the front of the section to the back, and the column number refers to the count of the marker from the left hand end of its specific row.
4. Once you locate the intended grave marker, open the *Aurasma* app. The app will recognize the grave marker and give you access to the biography.

Please note that row and column may change as new markers are added over time.

Veterans Legacy Program

The National Cemetery Administration's Veterans Legacy Program is a Veterans Administration-funded project that aims to connect veterans commemorated at national cemeteries to the broader community using cutting-edge technology and innovative pedagogy designed by a collaborative team of university professors, staff, students, and K-12 educators.

In the Spring and Summer of 2017 the University of Central Florida's History Department contracted with NCA to tell the stories of our nation's veterans memorialized at Florida National Cemetery in Bushnell, Florida. The project harnessed student research efforts to create biographies of veterans buried or memorialized at the cemetery. These biographies form the basis a website, which features the veterans' stories, a mobile application for cemetery visitors, as well as an interactive K-12 curriculum.
